## ENSURING EQUALITY in a CHANGING LONDON

As the government's priorities change, how do we make sure equality and diversity stay at the centre of work on engaging communities? And how do we deliver work that matters with radically reduced budgets?

LEP and LCF have been working to empower marginalised groups for the last ten years. The HEAR Network works to place equality and human rights issues at the heart of the work of London's voluntary and community sector.

Join us to hear about what we've learned, and to debate the best way to make sure everyone gets the same chance in our changing city.
